Multiple HealthCare

Mission Statment

Multiple Healthcare Limited aims to fulfill its 'C.A.R.E' policy otherwise referred to as (Care, Attention, Retention and Efficiency) where ever possible. It is our goal to employ competent, caring, and well-trained individuals who are responsive to the needs of our patients, their families, and the communities in which we serve.

Each staff member will meet the UKHCA and educational and training requirements for the services they provide. In turn we believe in the effective development and professionalization of the care sector, therefore we encourage and support the continued education of each of our 'individual service providers' alongside advanced training.

Introduction to Multiple Healthcare

Multiple Healthcare Limited provides a unique combination of high quality comprehensive contract services and holistic community-based social care services to the London and Greater London areas including Crawley. Multiple Healthcare Limited also satisfies the requirements of commercial healthcare establishments such as residential homes, hospices and hospitals.

The company facilitates an essential void within social care where there is a significant need for quality 'home health care' and social services within this sector. Multiple Healthcare currently offers the highest standard of care support within a plethora of areas which includes but is not limited to; general care, full support and Staffing to a wide range of client groups including; elderly, children, People with learning difficulties and/or mental health, and others who need support.

Why use Multiple Healthcare

Because of its ethos which focuses on C.A.R.E or 'Care, Attention, Retention and Efficiency', this is applied to all staff and clients.

Services

All of our services are heavily regulated, rigorously checked and of course constantly tested. Multiple Healthcare Focuses on enhancing all of its staff and thus employs regular training courses.

Currently we offer a rosta of carefully selected service that our experienced team can provide at the highest level possible.

Treating patients as friends, family and familiar characters often dictates the way our staff perform their unique brand of (C.A.R.E) in the community.

Some of the services we provide including: Care for the Elderly - Care for Disabled - Care for those with Learning Difficulties - Care for Youth (with disabilities) - Mental Disabilities - General Care Support workers (Home, Hospital / Hospice based)

About Multiple Healthcare

Multiple Healthcare is a fusion of several key health sector, and management acquired skills sets and experience which have culminated in the creation of a unique staffing 'solution' service for the care sector.

Formula for a successful care service

We at Multiple Healthcare Limited believe that by employing competent and well-educated staff and providing them together with organized and responsive management, we will become the home health care/commercial care service agency of choice in the South East region.

Established and Experienced Staff

The core experiences within the team includes; over 20 years of nursing experience, 30 years of care in the community and thousands of hours worth of practical experience and training within key authorities such as the NHS.

Live In Staff

Multiple Healthcare agency is making sure that all the customers needs are satisfied with the service provided, also is happy to take your feedback to improve our service in the future. We are also happy to take your feedback so that we can improve our service in the future.

Elderly Care

At Multiple Healthcare we passionately believe that wherever possible, Elderly members of the community should have the choice as to where they live in later life. We believe that senior persons react far better to being treated with the dignity they deserve.

We also believe that being able to remain 'living' in your own home and hence within familiar surroundings is a 'desire' for most people alongside sleeping in one's own bed, choosing one's own timetable and interacting with family.

Disability Care

We believe that a disability should not control one's life but rather create a system that allows the afflicted person with a way to continue with as many ordinary tasks as possible. Multiple Healthcare provides a professional service which can help maximise independence.

We understand that all our clients will have varying needs. Our staff are versatile and hence can assist with various elements of personal care such as, getting around, cleanliness, help with getting up, physical everyday tasks like cooking and simple companionship.

Learning Disabilities

Our experienced staff are trained in the importance of quality of life and that life is what 'as we believe' you make it. The latter means Multiple Healthcare solutions are creating a better standard for all clients and patients. We understand that more people with learning disabilities or learning difficulties are experiencing a better quality of life and for some their personal outcomes, dreams and aspirations are becoming a reality.

Multiple healthcare solutions and staff focus on supporting the 'individual' rather than just caring for the individual. The outcome creates an environment within which clients use our experiences to live their lives as independently as possible.

Mental Disabilities

Our range of services for mental health care needs can vary from specialist dementia care needs; to simple one to one social inclusion programmes. Multiple Healthcare workers are trained to the highest possible standards in Mental Health Needs and hence are well equipped in providing the right care for all clients.

We have identified some key issues which mental health clients possess; often patients with mental health problems find dealing with change such as a new home help or a change in an everyday activity e.g. food shopping or help around the house difficult. Our staff are well trained and experienced in helping people to continue on with their lives

Young People with Disabilities

Young people and children are a delicate issue that Multiple Healthcare policies aim to serve efficiently. Our process is focused on putting the child or young person right at the heart of the care they receive, so that we can support and empower children, young people and families with wise choices that will achieve positive outcomes.

Multiple Healthcare takes this area most seriously and hence an efficient and immediate service is often mapped out for each case. All our healthcare professionals are given CRB checks and child protection training. We can provide many specialist services to children including learning disabilities, physical disabilities, cerebral palsy and diabetes.

General Support Care Services

Our service provision is governed by the following statement, 'Multiple Healthcare are always able and willing to provide effective staffing solutions for your care needs'.

Multiple healthcare Services Limited offers an exact service that epitomizes its name. With an ever aging population and an increase in several minor and sever afflictions a plethora of key care support services are now required. Because every person is unique and will have their own unique needs our staffing team offers numerous key services. From general cleaning, to home help and companionship our services are varied.

Our mission is to provide care and support services to enable people to remain living in their own homes as long as they wish to and where required to support care homes, hospices and hospitals.

Our Promise

We continually invest time and training into giving our care professionals the right skills and knowledge for each person using our services. We can offer solutions within minutes and services for as long as a client requires it.

Our Unique Brand of C.A.R.E

Multiple Healthcare Limited has homed its unique C.A.R.E offering or (Care, Attention, Retention and Efficiency), for experienced health professionals who view this essential role as more than just a chore we are delighted to offer a career path.
